

# MYSTERY OUT INSTRUCTIONS

**CONTACT the ADDA Coordinator at [coordinator@addadarts.com](mailto:coordinator@addadarts.com) with the names of your teammates that would like to participate in this season's Mystery Out.**

As you may know, ADDA conducts a Mystery Out drawing each night of the regular season. For players to participate, they must notify the ADDA Coordinator by the start of the first match. Only notification is needed, payment is not due at that time.

**The Mystery Out costs \$1 per week** that the player decides to participate. A player may choose to play one week, or all 10 (number of weeks of the regular season). However, the only time players may buy in to the pot is the beginning of the season, or the week following a winning number, as the pot starts over again. The pot will grow each week the amount of players that are participating that particular week (135 players means the pot grows \$135 per week). For divisions with bye weeks, the Mystery Out numbers carry over from the previous week. Payment for the Mystery Out is due by the 4th week of the season (along with bar and player dues) or two weeks after players opt-in when the pot starts over. The Mystery Out number is drawn at the end of the night each Monday and the number is reported as soon as all teams have reported their results from their matches.

If there is a balance at the end of the regular season, we will have a guaranteed winner on Super Saturday. All of the Mystery Out participants during the season that play in the Super Saturday Blind Draw are eligible to win the remaining balance.

Each player submits any out they hit during the tournament and at the end of the tournament, one of those numbers is pulled for a guaranteed winner.

Now, doesn't that sound fun?!? Feel free to contact the ADDA Coordinator with any questions.
